Subscribed Capital..... 1,500,000 „
Reserve Fund..... 150,000 „

Offices in Buenos Ayres—
CORNER OF CALLE PIEDAD AND RECONQUISTA

Current Accounts opened with Commercial firms and private individuals.

Customers have the advantage of having approved Bills discounted—of obtaining Loans upon Negociable Securities, of Depositing Bills, Coupons, &c., for Collection—subject to a Conventional Commission.

The Bank receives deposits either at sight, for fixed periods, or at thirty days' notice of withdrawal, Interest on which is regulated by the market value of money, the Bank notifying any change in Rates, by Advertisement in the principal daily papers.

Letters of Credit issued to parties travelling abroad.

Letters of Credit issued to parties for the purpose of purchasing Goods in Europe, the United States, &c, the terms of which can be ascertained on application to the Bank.

Parties wishing to bring out funds to the River Plate, can do so through the medium of the Bank's chief office.

N. 52 MOORGATE-STREET, LONDON E.C.

TIME-TABLE
OF THE
Buenos Aires and Campana Railway Co.'s Steamers
TRIDENTE & DIANA

On and from the 1st of APRIL next the steamers TRIDENTE and DIANA, expressly built for this Company in order to facilitate the traffic between Buenos Aires, Rosario y Santa Fe will run as follows until further notice—

MONDAYS, steamer DIANA to Rosario and intermediate ports
TUESDAYS, steamer TRIDENTE to Rosario and intermediate ports
WEDNESDAYS, steamer DIANA to Rosario, Santa Fe and intermediate ports
THURSDAYS, steamer TRIDENTE to Rosario and intermediate ports
SATURDAYS, steamer TRIDENTE to Rosario and intermediate ports.

The Train will leave the Central Station at 3.15 p.m.

Passengers by these steamers will find excellent accommodation and good attendance, and merchants every security for their cargo.

The Company has made arrangements with the Central Argentine, Tucuman and Andine Railways for the through booking of passengers, goods and parcels between the principal stations on these Railways and B. Aires.

The Agency undertakes to receive cargo for the steamers at the warehouse of the sender and to deliver same to the Consignee, also to take out the necessary Custom House permits.

For further information apply at the
AGENCY
Calle Piedad 35

N.B.—Cargo for these steamers will be received at the Campana Railway Company's Goods Shed at Retiro from 6 a.m. to 6 p.m. on week days.

British Hospital.

The attendance of all Subscribers is requested at a Special General Meeting to be held at the British Consulate at 3 o'clock in the afternoon of Sept. 27th 1881, to take into consideration and to vote on the following resolution, proposed by Mr. G. H. Tucker, and seconded by Mr. J. B. Wanklyn, at the last General Meeting:—

RESOLUTION—That the Committee of Management be authorized to sell or mortgage the Hospital property in Calle Bolivar and Defensa, on such terms as may seem to them to be for the best interests of the Institution; but that prior to closing the transaction they consult with and obtain the written approval of 3 Subscribers, who shall be named at this meeting.

FURTHER—That, the sale or mortgages being effected, the Committee of Managment, subject to the approval of the three Subscribers aforesaid, are authorised to purchase a suitable site for the New Hospital, which must be easily accessible from the centre of the city.

FURTHER—That, the purchase of ground being effected, the Committee of Management shall present to a Special Meeting of Subscribers a summary of the operations, and submit plans and estimates for New Building when a Special Committee can be appointed to carry out the works.

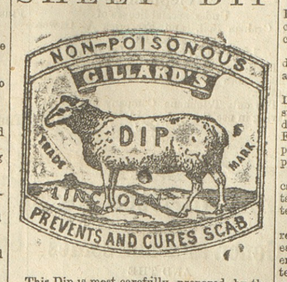
GILLARD'S SHEEP DIP



This Dip is most carefully prepared by the latest improved methods and can be used with

COLD WATER

Supplied to the Prince of Wales's Farm at
SANDRINGHAM

TESTIMONIALS.

From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.

From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.

From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881.—

"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that dip keep scab out of the flock."

From Messrs. Patrick Mahon, junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881.—

"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fully determined for the future to use no other remedy."

WARD & PAYNES,

Sheep Shears

OBTAINED

THE ONLY GOLD MEDAL

For Sheep Shears

AT THE

INTERNATIONAL Exhibition

MELBOURNE

1881.

Ward & Payne's Shears No. 100 and 125 are very much improved and manufactured specially for this country.

They are made of the best steel and in price and quality will compare favourably with any others in this market.

They can be had direct from the importers J. MOHR BELL & Co. or through all Hardware dealers.

Facts worth knowing

1—During last season the demand for WARD & PAYNE'S Shears in Australia was so excessive that cable messages were continually being sent for increased supplies.

2—Single pairs of WARD AND PAYNE'S Shears clipped 3,000 heavy woolled sheep, and the most expert clippers in New Zealand affirm that they can clip nearly 10 sheep per day more with these Shears than with any other.

3—WARD & PAYNE are introducing two new Patent Shears No. 200 and 'The Equalizing Spring for which they claim superior advantages. The undersigned will be glad to forward sample pairs on application.

4—Testimonials from Australia, N. Zealand and the RIVER PLATE can be seen at the Office of the undersigned

Alcock's Porous Plasters.

Calle San Jose 755, Buenos Ayres, 4th Feb. 1881.
J. A. Bennet, Esq.
195 Florida,
Dear Sir,
I have great pleasure in testifying to the efficacy of Alcock's Porous Plasters.
In 1876 I was attacked by Acute Rheumatism in this city, for which the three Doctors who attended me could do absolutely nothing.
After being in bed for 9 months, unable to move any of my limbs, I was advised by a friend to try Alcock's Porous Plasters. I did so, and in 15 days I was completely cured, returning to my work on the City of Buenos Aires Improvements for Mr J C Simpson.
This fact is known to hundreds of persons here. You are at perfect liberty to publish this, and I trust it will induce others similarly afflicted to try them; they are certain to be benefited by them.
I remain,
Very truly yours,
W. MURPHY.

NOTE—The original of this letter may be seen at the Agency—

HAVAS' AGENCY

London 23rd,

According to telegrams from New York, the new President General Arthur will keep the Cabinet named by his predecessor.

ITALIAN IMMIGRATION

MR. EGERTON'S REPORT.

Of the immigrants which arrived at Buenos Ayres in 1879, about two-thirds were Italians, a tenth Spaniards, a fifteenth French, about 2000 Austrians, chiefly from the Tyrol and Istria, and 700 odd British subjects, the Germans even less in number.

The Italians take to most kinds of industries. Nearly all the river craft are in their hands. They are the masons, navvies, bricklayers, joiners, gardeners and tillers of the ground. They seem adverse to sheep and cattle tending; but almost in every trade and in every district of this wide country the useful Italian is to be found. Thus, a friend of mine who bought land in a distant part of this province—but lately in Indian possession—told me that Italian bricklayers made their appearance there nearly as soon as the person whom he sent to take possession, and at once offered to build his house, the soil being in most parts of the province suitable for making flat bricks.

As shown by the number of immigrants, the Italian, after making what he considers a sufficiency for his future, is prone to return to his native land. His success, however, forms an invaluable advertisement to this country as a field for labour, and the strongest Government dissuasion may prove impotent to deter his neighbours at home in Italy from following his example.

I cannot agree, therefore, with the prejudice felt by many against the Italian immigration on the ground that they do not remain and spend their earnings in the Republic. It appears to me rather that the cheaper labour which the mobility of the Italian confers on this country probably develops itself more rapidly than if he remained here with his family. For it is very patent—and this must be an effect of climate—that the born American is less inclined to steady and hard corporal labour than the European. Indeed, the American's intelligence is apparently stimulated by his efforts of ingenuity to avoid the very physical toil he seems so much to dislike. I venture, therefore, to consider that the returned emigrant may be a means of more useful labor being available in the Plate than if he had permanently settled here. Nor can it be said that the Italian fails to display the intelligence of his race in spending his money, when disinclined for further labour, in the Old World, rather than in the New; for though the latter is the best field for labour, it undoubtedly affords for the money spent far fewer attractions to those who wish to enjoy their leisure.

It is worthy of notice, as an example of what may be done in the way of international exchange in the world's labour market, now that rapid steam communication abridges distance, that the Italian labourer frequently comes out here in October—the Southern Hemisphere spring—to work at shearing, at the harvests, &c., returning with his earnings in March to resume the same labours in Italy. This he will do for consecutive years.

The advartised third class fare by the fast Italian steamers (I do not allude to the reduced fares obtained through the Argentine Immigration Agency) is about £9 for the single journey, with a considerable abatement in the return ticket, the double journey not costing more than £14 or £15.

A harvester and sheep-shearer will earn about 6s. a day, sometimes much more.

Admitting that the Italian saves nearly all his wages, as his thrift is marvellous, and he probably lives at three quarters in the farm where he works, he can scarcely have saved more than £25 or £30 by the time he gets back to Italy in the spring after his two long voyages. It is true the long sea journey to South America generally offers far less discomfort from bad weather than the shorter North Atlantic passage to New York.

An Englishman, on landing here fresh from home, would not dream of submitting to privations which are not felt as such by the Italian peasant, and would not consent to sleep anywhere and anyhow, and to forego many little comforts which to him are necessaries.

The Basques, from Southern France and Spain, are especially welcome here—a vigorous, somewhat ignorant, race of men, of quiet, industrious habits. They frequently arrive with their families, and, as a rule, remain, working chiefly at agricultural pursuits and in sheep and cattle farms. Milk and butter is chiefly supplied by the Basques, and they are employed in occupations which require physical strength—in saladeros, slaughter-houses &c. Great wealth has already been accumulated by these laborious men.

A NATIONAL MUSEUM.

One of the chief attractions of European cities consists in cursory visits to museums and picture galleries. This taste for antiquities and art is innate, so to say, on the Continent, and those who do not possess the delicate faculty try very hard to acquire or make out that they have it. Love of art is born with the child in many, and principally Latin, countries, and a natural 'penchant' for antiquities is evident all over Europe. The visitor always derives a particular pleasure in inspecting queer old instruments of torture, some damp and musty dungeon, the parietal projections of a celebrated skull, the bed of some illustrious man, or examining the 'nuances' of an Arras Gobelin and the contrast of colour blended with harmony in some Alpine landscape. Antiquities and art, therefore, draw crowds to the old cities of Europe which yearly are overrun with visitors in search of these 'desiderata,' and whose visits support a large European public.

The National Government, composed of men some of whom have travelled all over Europe and visited its principal Museums have come to the conclusion that Buenos Aires must meet the obligations of a growing civilization. Our talented Minister of Justice and Public Instruction, Dr. Pizarro, no doubt, whilst reading Maspero, Lenormand, Mariette and Rawlinson, has struck on the good idea of creating a National Museum of South American antiquities in general. Thus the physiologist, the antiquarian and the philologist who visit Buenos Aires may derive pleasure and information from a brief stay in this south American Athens. Although we have usurped the name, Buenos Aires constitutes a very miserable apology for the old Greek capital. Old Athens was a grand museum in itself, with its Onyx, Arcopagus, Parthenon, &c.: every street corner was a curiosity, a Corinthian pillar or a Hermes statue. Our Bolsa is not a patch on the old Piræus. The Hypothecary and Provincial Banks, the Post-office and the Cabildo, are the only Buenos Aireau monuments, and certainly these four buildings are no compensation to a visitor after a month's sea voyage, accompanied with the clorurated influences of salt water, in the shape of sea sickness and 'ennui.' A museum is the want of the moment, where people can scan at least something novel and thoroughly original. Old Europe and people in general are heartily tired and totally 'done up' with the Papyrus, Sphinx, Lux or Needles, shrivelled mummies and those mazes of hieroglyphics which year in, year out, constitute the morbid attractions of the Louvre and the Kensington and British Museums. We must get up something thoroughly American, with plumed tomahawks, caciques' ponchos, bolas and Indian manuscripts.

SUTTON'S Famous Home-Grown Seeds 'SPECIAL' collections of Vegetables and Flowers. Choisest Assortment. Sole Agents MOORE & TUDOR, 93 Maipu

Argentines have their travellers and sages, like other nationalities, and although they may bend their heads to the superior information of Max Müller, Tyndall, Maspero, and a host of others] who, like Dozy, fairly take away one's breath with their knowledge, we may yet with our Morenos, Listas, Burmeisters and Goulds astonish the world and unravel from some Indian Marathon the secret history of the Indian forefathers, whilst searching for the prototype of the race. There are men amongst us, like Bartolome Mitre, V F Lopez, A Lamas etc. who can throw an immense light on these questions, as besides personal knowledge and study, they possess many invaluable documents to the point. It is wonderful what the spirit of emulation can achieve in this line. It is sufficient to cast a glance on the discoveries, inductions and writings of Maspero, Lehsins, De Vogue, Bingsch, Movers, etc, in order to come to the conclusion that we know more about antiquity in general than the ancients themselves: thus the European museums possess papyri two, three and four thousand years old, and many scientists now-a-days know more about Egypt, its monuments, its literature and its Kings than the Egyptians under the Ptolemies. It seems a paradox, but it is a fact.

In connection with such unlooked-for results in Europe, regarding the old Egyptians, Assyrians, Koushites and Phœnicians, one may angur brilliant prospects for the new Argentine museum. Sooner or later the Indian races and the Indian languages are doomed to disappear: the races must be blended whilst their languages sink into oblivion, and future generations will look back with interest into the past, which has acquired greater interest owing to the mystery in which it is more or less shrouded. It is the duty of the present generation to lay the foundations, when it is yet easy and when these races and these languages are still extant, although, perhaps, only a shadow of what they were once in the brilliant epoch of the Incas and of the Pirus. And strange to say, in spite of the all-absorbing interest of such an investigation, very little has been herein effected by Argentines; the few works that the country possesses spring from the midnight-oil labor of the old missionaries, who were then proverbial for their efforts in converting the so-called savages: they are gone, but their works remain. Through a strange contradiction the European linguists know more about the Indian languages than the South Americans who daily come in contact with these races. During the colonial regime they showed some industry in their investigations, much more so than their independent descendants, who are characteristic for their total indifference in this great question. We must take up some German or Spanish author if we would wish to know the number of South American languages: these are calculated to exceed one thousand, and, when we consider that each language calls for special study, we must admit that the field for research is vast enough and adequate brains are needed to wander through the maze of philology.

With regard to Indian antiquities, the country boasts very few, if we except the old bones of Indians and instruments disinterred from the upper crust of the globe: these few items are simply embryonic. The museum will also comprise the fauna and flora of the country: a botanical garden should be appended, but this is a question of time, and the beginnings must be modest. A good classification of minerals is badly wanted, in order to open the eyes of many who bought Argentine mineral collections in this city from an enterprising individual who sold them very cheap, and long since retired on the profits; the joke consisted in the fact that the best clients of the vendor of minerals were 'provincianos', who might have known better the minerals of their respective provinces.

If the National Museum may be considered a luxury, it is nevertheless a necessity for the student and the scientist. Vicuña Mackenna was right after all when he stated that there was too much of the mercantile and bargain spirit among the population of Buenos Aires. To the stranger the city offers no attractions, since we have no picture galleries, no Salon, no art exhibitions whatever. A museum would be a priceless boon to the visitor, who up to the present limited his curiosity to Baltar and Quesada's ram auctions and French opera bouffes in the Colon. There are many who could contribute much to the institution, and now more than ever we deplore the loss of the old *Standard* museum, with its old Paraguayan bones and curiosities. Let the museum assume the character of the Cluny in Paris, and be similar to those one meets with scattered over Europe in Antwerp, Brussels, Nuremberg, etc. Argentines may begin with antiquities, since at all events they must end with fine arts, as the whole population is being rapidly submerged into the Mediterranean qualifications of an Italian element.

When a man marries a woman, which is the cheaper, the bride or the bridegroom? The bride, because she is 'given away,' but the bridegroom is 'sold.'

Should the weather be unpropitious this morning, the Pilgrimage to Lujan will be postponed till December 8th; otherwise, the pilgrim start by the 6.55 train from the Parque.

AN ARGENTINE IRONCLAD.

A correspondent writes:—

"The Almirante Brown left her moorings at Greenhithe on the 16th instant, and steamed past the Nore for gun practice. Her armament consists of eight 8 inch 11½-ton breech-loading Armstrong guns of the new type, firing projectiles of 180lb. weight, with 90lb. battering charges. There are besides six new type 40-pounder breech-loading guns on automatic carriages, together with smaller guns. A couple of rounds were fired from each of the guns in the course of the practice, Although the battering charges of the guns are twice as large as those of the guns of similar weight in the British and other services, no injurious results of any kind were observed in any part of the structure or fittings.

"The Almirante Brown returned the same afternoon to Gravesend, and is expected to leave for South America about the end of the month.

"It will be remembered that this vessel has been constructed by Messrs. Samuda at Poplar, the armament being arranged and supplied by the Elswick firm, She is of built entirely of steel, is of 4,200 tons displacement, and 4,500 indicated horse-power. In her trial trips on June 14th she attained an average speed of six runs of over 14 knots an hour. Her eight 8-inch guns are so mounted that three of them can be fired straight ahead, three straight astern, and three on each broadside. The gun has penetrated, at Shoeburyness, an unbacked, solid-wrought iron armour plate of 16in. thickness, and is, therefore, competent to pierce the great majority of ironclads. In range it exceeds all the guns as yet mounted in the British Navy, and in penetrative power surpasses all but the guns of the Inflexible, Dreadnought, Devastation and Thunderer, which vessels carry only four guns each. Three years ago we published a full account of the first performance. It has been, together with the 6-inch 4-ton gun, very exhaustively tested by a mixed War Office and Admiralty Committee.

"The Admiralty have ordered the Rover to be armed with 12 of the 6-inch 4-ton Armstrong guns in place of the existing armament, and have ordered 103 similar guns to be made at Woowich, so as to carry further such substitution. But no step has been as yet taken towards replacing the existing 12-ton guns of the Navy with the new type 8-inch guns. This gun became famous in the Chilian war, and the Chilians are now re-arming their navy, including Sir E. Reed's ironclad and the well-known Huascar with it, and larger guns of the same type."

EDITOR'S TABLE

The procession to-day will form in Plaza Victoria at noon, 8 abreast, half a yard between each file, and will start at 1 o'clock for the United States Legation, via Calle San Martin. In the centre of the column the Press Committee will march, with a standard, and also the flag of the United States, both draped in crape; all the flags of the several nationalities in the procession will also be in mourning. The bands will be placed at intervals in the column and will play funeral marches in succession. General Osborn will be in the balcony of the United States Legation, in Calle Lavalle, and all will uncover when marching through the square, between San Martin and Florida; in which it is situated. In Calle Florida the procession will break up. Acclamations, speeches, or any other demonstration, is strictly forbidden, a solemn silence being the most eloquent of demonstrations on such a sad occasion. Yesterday all the United States citizens in town were crape on the left arm.

The French steamer Niger sailed yesterday. The day was delightful and the passengers had a pleasant sail to the Outer Roads.

The Italians hold their postponed fetes to-day, and there will be grand doings at the Exhibition building in Calle Cerrito. The Venetian illuminations and fireworks at night, we hear, will be something superb.

The Montevidean Post Office reports that the recently established money-order service between this city and that has proved a complete fiasco, nobody having transmitted a rap in that way. People, very naturally prefer the banks as a medium for sending money. When letters and newspapers go astroy so frequently; money orders are liable to the same fate.

The German Singing-Academy will give its 67th concert to-morrow, Monday, evening, the 26th inst, in the Coliseum. The programme is published in our advertising columns and we see that the selection of the pieces is made with the usual care and due regard to the classical standard which this society aspires to. The periodical concerts of the German Singing-Academy are always a treat to lovers of good music, who thereby have an opportunity, which is rarely or never afforded to them here by any other society, of listening to choruses for mixed voices. These choruses, thanks to the exertions of the amateur gentleman who has kindly directed the concerts until the services of a professional could be obtained, have reached a degree of proficiency not often met with. The new feature in the concert now to be given is, that it will be directed by Signor Melani, whose services have been secured by the society. This gentleman, although but lately arrived from Europe, is already well known in our musical circles, not only as a brilliant violinist, but also as a first-rate musician. Entering upon the details of the programme we call attention to the morning-hymn by Raff, the song of Fate by Brahms, the Lay of the Spirits over the Waters by Hiller, and Mendelssohn's 114th Psalm, which have been sung before by the society, meeting with the favorable reception which they deserve; we shall now be able to judge how these pieces will be rendered under the direction of Signor Melani. The two choruses without accompaniment, The Fishermen, with solo for soprano by Schubert, and Joyful Spring by Raff, two charming compositions, are novelties which are sure to please the audience. Besides the chorusss we shall be treated to soli and a duet by two ladies well known to the frequenters of these concerts and whose singing has been listened to always with the greatest pleasure, but whose names we must reluctantly refrain from mentioning, as they do not appear in the program. me. A prominent feature will be the Soli by Herr Friedrich Maugé, whose powerful and agreeable voice has been duly appreciated by the visitors of the Colon Theatre, and who, being a German by birth, has been prompted by a patriotic impulse to volunteer kindly to embellish the programme by singing some of his best pieces. Last but not least, Signor Melani will play the Romance in f. by Beethoven and a part of the 8th Concert by Spohr, which pieces require the interpretation of an artist such as this gentleman, to be properly understood and enjoyed. The orchestra will be reinforced by the accession of some of our best amateur players, and thus we may safely predict that the attractions which we have enumerated will draw a full house and that this concert will add a new triumph to those already won by this society.

The War Office yesterday sent circulars to all the Governors of Provinces asking for returns of the National Guards enrolled in their respective provinces.

The special race train for Lujan will start at 8 o'clock sharp to-morrow morning, so those who intend to go had better order their matutinal tea, coffee, cold water, or B and S to be at their bedside early.

The Sociedad de Proteccion Mutua has taken up the Sunday Closing movement, to allow shopkeepers' assistants one day of rest in the week. They badly require it, independent of the gain to public morality by putting a stop to the desecration of the Sabbath by trading on that day. Nobody is ever much the richer at the close of his life by what he gains by Sunday work.

The opera company for the new theatre in Calle Florida has been engaged, and it is, necessarily, a trifle under the 'Patti mark' to which the proprietors were understood to first aspire. The prima donna is Madame Pappenheime, an undoubtedly good singer; the 'divine Stagno' is the tenor, and the others are not so prominent. The company will sing here next winter, but the theatre will be inaugurated during the summer with two companies—one German and the other Italian.

Those who remember Baden-Baden in the glory of its 'rouge et noir' days should read Dr. Gutierrez's eloquent letters in the *Patria Argentina* from the 'lovely Rhine. His vivid word-painting recalls the superb scenery of that splendid country with most enjoyable fidelity.

The Andine Railway extension appears to be going ahead with lightning speed. A telegram from Rosario says that within the last week three leagues of earthworks have been made. There must be an army of navvies at work.

We return a thousand thanks to our esteemed subscriber Mr. John Schultz for all the London illustrated and society papers he so kindly sent us yesterday.

Marriage of Mr. Wilson.—On Thursday, the 4th of August, was celebrated at Stephen's, South Kensington, the marriage of Rathmell George Wilson, Esq., of the Estancia Buena Suerta, Azul, with Catherine Elizabeth, daughter of the late Archibald Roberts Young, Esq., B.C.S. The service was choral, and the bride and bridesmaids were met at the church door by the three officiating clergymen and the choir. The bride was supported by her brother, Major Young, and wore a dress of 'duchesse' satin, trimmed with Brussels point, tulle veil and wreath of orange blossoms. She was attended by six bridesmaids—Miss Margaret Young (sister of the bride), Lilian Wilson, Annie Gower, Edith Brakspear, Maude Young and Agnes Little, who were dressed in white India muslin dresses trimmed with Breton lace and gold-coloured satin ribbons, bodices of white Sarah silk with gold buttons and trimmed with lace, white lace hats with gold velvet flowers, gloves and shoes of the same golden colour. Each carried a basket filled with pansies of all shades of gold, maiden-hair fern and forget-me-nots: they each wore handsome bangles, the gifts of the bridegroom, The groomsmen were—Messrs. Henry J. Wilson, (best man), Coutts Majoribanks, G. Bullock (11th Regiment), C Cook, Dalzell Savary and Seton Hamilton (1st Life Guards.) After the marriage ceremony the wedding party sat down (sixty in number) to a breakfast at Mrs. Young's, where the usual toasts were given and responded to. At three p.m. the bride and brides groom left for Windsor and the Continent. The presents, numbering over 180, were exceedingly beautiful.

Last week we published a letter written by the master of the Pride of Devon, detailing the shameful treatment his crew received at the hands of the Port authorities while in custody on shore, We since learn that the mate, Mr. Gunn, suffered still more, having been chained to the mast of the guardship by an iron bar, fastened to a ring around his leg, and kept there for 34 hours lying on the hard deck, till he became quite weak. Kind treatment this to a sailor who had lost his all, and whose only offence, which has not been proved, is refusing to allow the Port authorities to deal with property under his charge as they thought fit. We believe H.M. Consul has demanded the severe punishment of the offending officer, and has represented the matter in the proper quarter, so that the superior authorities of the nation may in future prevent their subordinates acting in such an arbitrary and illegal manner.

Some practical joker or jokers played a most contemptible hoax the other night on several leading families of the city, on the occasion of Mr. and Mrs. Berdier's ball. Dozens of false invitations were issued to families the hosts did not know, the object being to bring the bitterest political opponents together. Mr. and Mrs. Berdier's courtesy and 'savoir faire' saved the situation during the ball, but the whole affair has since leaked out. The horsewhip is the proper thing for the author of this disgraceful trick.

Mr. Dodds, the well-known surveyor, will start to-morrow for Chascomus, to measure the property recently purchased by the Rural Society of that town.

25½60 cents Prov. Bank m/c. 1$ gold.

EMILIO CIVIT.

ON 'CHANGE.

Sept. 24th, 1881

Patacons	25.55
Cedulas A	99
National Bank Shares	125½

The market was much more lively to-day, and strange to say the strongest movement was in Cedulas, which spite of all the efforts of the bears are well maintained. Gold rules hard and firm, and Cedulas and Shares rather weaker.

The gold market opened at 25.60 cash, and closed at 25.55 cash, sales 66.900. For the end of the month 340,000, sold at 25.60. For Oct. 330,000 at 25.60, and for Nov. and December same rates; there were frequent sales for Oct. Nov. and Dec. which were attributed to houses securing their gold for the end of the year. Total gold sales 981,900.

In Cedulas large sales were made on time chiefly for Oct. and Nov.; the sales of the day amount to 442,000 of which only 32,000 cash. It was said on very good authority that the first week in Oct. the Government project will be laid before the Chambers, and people who sell now sell too soon, as the project will probably put the stock to 3 to 5 prem.

Nat. Bank Shares were much weaker to-day than yesterday, and this was chiefly attributed to the increased movement in Cedulas and gold. Nevertheless the price of the stock was pretty well maintained and they say that all the money required next week to pay for the stock has been found, and the bears who have been selling short will again have to pay high rates to close their liquidation. Shares opened cash at 126, and closed at 125½. Cash sales 104. For end of month 2360, opening at 126, rising to 126¾, and closing at 126½. For Oct. 1000 shares at 127, total sales 3464, which for this stock is a small day's business.

Although the produce as os of the week were small, there was a large money movement today, and all the tables were filled. At the Banks also there was a strong cash movement; business is at last beginning to stir and merchants are in better humour.

The clearance of the French mail was the business of the day; not much exchange was passed for this packet, and merchants complain that the rates are so high that they cannot pass their bills, and this is an impediment.

Gas Shares very firm, and buyers offering; holders refuse under $2,000.

We heard on 'Change that the movement to sell the present site of the Scotch Church or exchange it for a larger site has fallen through. The present site is central and excellent, and the trustees would find it difficult to get a better one. We hear the bid for the present site is $1,250,000, which for so fine a site seems very low; the site has 25x55, and ought in that locality to be worth nearly double the sum.

Much National land is now offering in the market; the sale of 4 leagues, about 50 leagues West of 9 de Julio, at 30 000 m/c per league is reported. One of our city Doctors buyer.

The market opened this morning with rather better news from Chile. It seems that the Chilian Government has summoned the Congress to special session to discuss the Argentine treaty, and private telegrams from Valparaiso state that the Chilian Government has a majority in both houses. The opposition is as it is here, in a great minority. The 30 days plaza allowed in the protocol just signed, we understand, begin to run from 22nd inst. so that by 21st of October the question will be settled.

At the Once to-day Messrs Duggan sold 12,000 ar. wool at reserved prices. We notice that wools are at last moving off, but they say that still there is a stock of 500,000 ar. old wool in the country, and every day now wools keep coming in from the camp just as if the wool season had begun. It is not probable that we shall get all the old wool off before the new wools come in.

We publish in our supplemental sheet Mr Bateman's report on the continuation of the works; a most important paper.

The sales at the ring were—

For cash 66,900 25.60-55
For Sept. 26th 10,000 25.60
For Sept. 30th 340,000 25.65-60
For Oct. 31st 330,000 25.60-55-60
For Nov. 30th 130,000 25.60
For Dec. 31st 105,000 25.60
Sales, 981,900.

Cedulas—

For cash A 32,000 99
For Sept. 26th 10,000 99
For Sept. 30th A 160,000 99¼-⅛-99
For Oct. 31st A 110,000 99¼
For Nov. 30th A 110,000 99¼-⅛-99
For Dec. 31st A 40,000 99
Sales, 442,000.

Nat. Bank Shares—

For cash 104 shares 125½
For Sept. 30th 2,360 shares 126-½-¼
For Oct. 31st 1,000 shares 127-¼-127
Sales, 3,464.

At afterhours the market for Bank Shares and Cedulas ruled cold, and very little done. In the gold market there was a little more activity. Some sales we hear were made at 25.55, but the bulk of the business was done at 25.60. The Nat. Bank Share market feels in nothing the stringency in money, since the heavy speculators have borrowed gold and not paper to carry the stock.

The Provincial Bank continues drawing exchange and withdrawing the paper. They said on 'Change that the amount the Bank has withdrawn from the market during the week is some twenty five millions, but then it must also be remembered that the Bank this week gave in discounts some 18 millions, and paper money, not for speculation, but for legitimate business purposes is in strong demand.

We note that politics are again much talked of on 'Change, and gold speculators discuss the Chilian question which they say is farther off from a settlement than ever, but the market is fairly tired of all these nonsensical rumours spread solely for speculative purposes.

This was a great welcoming day on Change, Mr Fremery, the leading barraquero, who has returned from Europe, Dr C H Stokes, of Montevideo, who came out in the Valparaiso; Mr Schultz, of 9 de Julio, who came in the packet, and Mr Rossi, who has returned from a 3 months' Corrontino trip, were each and all duly welcomed on Change.

In wools there is a decided movement. Mr Casey sold a lot of 1800 ar. at 69. Messrs Unzue sold 10000 ar. out of deposit, and Messrs Duggan sold 12,000 this morning out of deposit; all at reserved price.

The sale of 3500 head of horned cattle in Province Santa Fe, deliverable at an estancia in Lincoln by January, is reported at 23.5 m/c al corte.

Messrs Tomkinson and Dungay made the following charters to-day.

American barque Hermann to load hay in Rosario for Rio at 2½ pats.

Italian do Felice B, to load bones and bone ash at Yaguari for Baltimore at 4 pats.

Italian do Angelo Ferrary, to load maize in port for Gibraltar and orders at 20 fros.

The Herschell will sail for Bordeaux on 1st with full cargo.

The Plato is expected in Montevideo tomorrow, she left Liverpool on 27th instead of 26th.

The Pliny leaves Rosario on Monday.

The Pascal sails to-morrow for Brasil, she takes American mails, and 60 horses for Rio

The Pride of Devon was sold to-day, as she lies, hull and cargo for 1840 pats, buyer Mr Jones, Montevideo.

Messrs G Gowland and Co. sold by order of Prov. Bank the house Calle Belgrano No. 207, measuring 8½x63, for 175,500. Don Pedro Ruiz buyer; the basis of the sale was 120,000 pesos m/c.

Nat. land boletos are very freely offered in the market, and the brokers are doing a brisk business in selling them for the officers to whom they are awarded; the first issues sold as high as 32,000 m/c, but now they are offering at 25,000 m/c per league.

The total amount of gold bought for end of month at afterhours, it seems, was close on 500,000 pats. Many of the houses that had too much gold sold out, but the market presents a strange appearance; outsiders are buying gold, but the Bank rules the gold market.

The Sales at afterhours were—

Gold—
For cash 30,000 at 25.60
" " 20,000 25.55
For Sept. 30th 50,000 25.60
For Sept. 30th 20,000 25.65
Sales, 120,000.

National Bank Shares—
For Sept. 30th 1,200 shares 126-125½-½

Cedulas A—
For cash 30,000 at 99
For Sept. 26th 50,000 99
For Sept. 30th 100,000 99
For Oct. 31st 40,000 at 99½
For Oct. 31st 20,000 99½
Sales, 240,000

Market flat.

Nat. Treasury Bonds—
For cash 5,000 at 115

Messrs J. Lloyd & Co. have presented to Congress a project, with the guarantee of D. Alejandro Maderna, for the extension of the Eastern Argentine Railway. The salient points of this proposal are to construct and work a line which starting from Villa Colon (in Entre Rios) will run to and form a junction with the existing line running between Concordia and Arroyo del Ceibo, in Corrientes, and from thence will run parallel with the banks of the upper Uruguay to Santo Tome, passing through the towns of Paso de los Libres, Yapeyu, La Cruz and Alvear, and from Santo Tome will stretch across Misiones to Posadas on the Upper Parana. The cost of drawing up the plans &c, to be for account of the contractors, and to be made by their own engineers, under the supervision of an engineer nominated by the Government. Those plans to be submitted for approval within twelve months after the signing of the concession. The works to be commenced within a year after the signing of the contract and to be concluded in Posadas four years later, or earlier if possible, excepting always cases of force majeure. The railway will be single and of wide gauge, the same as the Eastern Railway, i.e., 5 feet 6 inches. All materials for the line, including carriages and waggons, to be similar to these used on the Andine Railway between Mercedes and San Luis. The line will be divided into four grand sections as follows:—1st from Villa Colon to Concordia; 2nd, from Arroyo del Ceibo to Paso de los Libres; 3rd, from Paso de los Libres to Santo Tome; 4th, from Santo Tome to Posadas. Each 50 kilometres may be opened to traffic as soon as ready. The company will carry free of charge all Government and public correspondence; troops, war material, and immigrants and their baggage will pay half price. The Government to guarantee 7 per cent per annum on 20,000 pats gold for every kilometer finished. This guarantee to be paid quarterly on the sections opened to traffic. The guarantee to last for a term of 20 years, counting from the date of the opening of each section to the public. The Government guarantee applies only when the income of the line is less than 7 per cent per annum, and in these cases the Government will only be liable for the deficit.

The following sales reported at the Plaza Once this morning:—

70 waggons with produce arrived.
Produce sales in general without variation.

The sales were—

1300 ar. wool, Elordi, 76
2200 " 70, borrega
440 doz. sheepskins at 21½, 23, 23½ rls.
Corderos at 21 rls.
Desechos at 15, 16 rls.
680 doz. corderitos at $13, 13½, 14
250 cow hides at 160
80 potro hides at 32, 34
Potrancas at 17, 16
92 ar. hair at 145, 140, 138
Wheat, 120 fan., candeal, 160
700 fan. from rivers, 140 per 9 ar.
Maize, morocho and yellow, in grain, at 56, 54

Mr Herman Altgelt, in his important corn circular for the last week, gives the following:—

"The arrivals of wheat &c. during the last week were:—

Wheat	210,747 kilos
Flour	23,418
Maize	382,643
Hay	401 bales
Flax	nil

"Arrivals of wheat few, business dull, and prices about the same. Flour also dull; large lots from rivers offered at 27, but withdrawn. Maize a little higher."

Messrs Torrome Son & Co., of London, under date Aug. 22nd, give the following as the latest quotations:—

Argentine 6 o/o 1868	99½-100

The following late news about the Antwerp produce market, from Messrs Bunge & Co. of that city, under date Aug. 24th, 1881, is important:—

Wool—

The demand for this article, slack during the first week after date of our last report, has become more lively since then and 1,793 bales have changed hands at about the prices of our last public sales. In general we do not see any great change in the position of the article; there seem to exist wants in different parts, but on the other hand our market is amply supplied, our stock amounting to 30,552 bales, whilst the balance of the clip left yet in B. Aires comprises about 20,000 bales, of which no doubt a great portion will find its way to our port.

The following is now our statistical position:—

	Bales.	
Stock on 11th Aug., 1881		30,384
	Bales.	
Arrivals from Buenos Aires	2,592	
" Montevideo	6	
" Rivers	—	2,598
		32,982
Sales by private contract	1,793	
Public sales	—	
Transit	537	2,330
Stock to-day		30,652

The whole attention of the wool trade is now fixed on the third series of London sales, which opened on the 23rd inst. and at which about 400,000 bales were offered; the same opened with much animation at about unchanged rates on last sales for most sorts, crossbreds however showing a decline of ⅛ to 1 penny. The further proceeding of these sales will be of course of paramount influence on the article and it remains to be seen, if the wants of the trade are so great, that they can absorb the very large quantity offered, at the new established prices.

Sheepskins—

There has not been much enquiry for skins, sales are only 18 bales, and stock to-day amounts to 482 bales.

At the public sales held on 17th instant in Liverpool there was about the usual attendance and the competition was fair, however only ⅔ of the 650 bales offered could sell at somewhat easier rates.

Hides—

This article continues in a good position, and notwithstanding a couple of holidays last week sales reach a fair amount. There are evidently many wants to fill, and as much confidence is generally felt for the future, no stock can accumulate.

In England there has been less animation these last days, and it seems that there are no buyers at the late rates, but provisions are not large there, and business will thus probably soon revive.

Only one sale is reported on the English coast:—

Enrichetta M., 10,000 Casa Blanca ox, 68½ lbs., at secret price, which is probably a small fraction below 7½d.

Here we have to mention the sale of the Varuna, 10,000 Mocoreta ox, 65 lbs., discharging at fs.75, round.

Tallow—

A very firm market, and prices rising.

There were sold 79/1 and 10/2 pipes beef ex Oceanspray from Fray Bentos at fs.90, and 521/1 and 143/2 pipes beef ex La Plata from Gualeguay at fs.91.

There is no stock left.

POR LOS MISMOS
Cien leguas de Campo.
En Santiago del Estero
Orden del Exmo Gobierno de esa Provincia
Con derecho a ubicar donde se quiera
Primera vez que se vende con esta condicion
SIN BASE ALGUNA
Venta a Plazos
En nuestra casa San Martin No 51
El Miercoles 5 de Octubre
A las 2 en punto de la tarde
Venderemos al mejor precio y a plazos, por orden del Exmo. Gobierno de la Provincia de Santiago del Estero y con acuerdo de su Legislatura.
Cien leguas de campo, divididas en lotes de a cuatro, teniendo sin embargo el comprador derecho a tomar desde una hasta las cien.
El Gobierno de Santiago ha sido, como lo de cimos, autorizado por su Legislatura a vender esta gran zona de tierra, pero a objeto de facilitar la operacion, la venta se hara sin otro plano que el de la Provincia, por cuanto se da el derecho de ubicar donde se quiera, dentro de los limites de la misma.
Con este derecho cualquiera persona que este en el secreto de la situacion de un campo inmediato a la plaza principal, a las quintas contiguas a la ciudad o por sus alrededores, puede pedir su ubicacion alli mismo, como tambien los que conozcan donde existen los que puedan tener pastos de primera calidad aguas permanentes, montes, etc.
El Gobierno de Santiago no pretende con esta operacion hacer un negocio.—Su objeto se limita a fomentar el progreso de su Provincia, poniendo la tierra al alcance de todo el mundo, llamando asi a su centro la formacion de grandes establecimientos y la poblacion consiguiente.
A cada comprador se le dara un boleto con un numero de orden y en el cual se fijara un termino para pedir la ubicacion,de manera que el primera que compre, sea el primero que elija y asi sucesivamente.
Siendo la venta dentro del territorio de Santiago, ningun otro gobierno iniciara protesta a guna, lo que importara garantizar un titulo perfecto y libre de todo gravamen, habiendose resuelto que las escrituras se otorguen ante de oficina de un escribano de esta capital.
El pago se hara mitad al contado al estenderse la escritura y el resto a 6 y 12 meses en garantia del mismo campo.
En resumen—Jamas se ha puesto en venta un lote de tierra en iguales condiciones y desde hoy el publico debe preocuparse de averiguar en que punto pedir la ubicacion del numero de leguas que necesita para la plantacion de establecimientos de campo, ingenios etc.
No obstante de tener, aquí en Buenos Aires un apoderado general el Gobierno de Santiago nosotros daremos mas pormenores en nuestra casa San Martin 51.

POR LOS MISMOS
La novedad esperada por los Sres. Hacendados!
Llegados en el PLINY.
LOS 4 TOROS
Pura Sangre Short Horn
Elejidos personalmente, despues de recorrer 11 Cabañas, por el Sr. Maximo de Elia. Se venderan por cualquier precio.
En nuestra casa
51——SAN MARTIN——51
El MARTES 27 de Setbre.
A las 2 de la tarde.
El dia señalado venderemos por cualquier precio y por orden y cuenta exclusiva del inteligente cabañero Don Maximo de Elia, un lote de 4 unicos toros que elijio personalmente despues de recorrer 11 de las mas reputadas cabañas de la Gran Bretaña.
En su carta de remision nos dice:—
"El 'groom' que va cuidando los animales entregara a Vd. los 'pedigrees' en verdadera forma.
"Creo conocer bien a mi tierra y la competencia del gremio de hacendados, y me parece que las 4 piezas que mando satisfacaran completamente sus exigencias. Ignoro los animales que se hayan presentado al remate despues de mi salida, pero mientras yo permanecia alli, puedo garantirles que jamas se han vendido toros ni de la sangre ni del tipo de los que mando.
"Tengo la conciencia que perdere dinero, pero la tengo tambien que no he perdido el ojo *en lo vacuno* por mas que por aqui hay muchas razas de diversos generos, que llaman hoy la atencion.
"En fin, Vds. veran los animales; creo que es lo mejor que ha ido por la tierra."
Cuyo detalle es el siguiente—
LORD DE BREOS No. 2—Rosillo nacido 8 de Octubre 1880, criado por Hupsey Vivian, hijo del toro Lord Calcot 2°, No. 34,501, y de la vaca Tripaway y por el toro Duke of Tawsley No. 23,387.
TREDEGAR No. 1—Rosillo nacido 29 Marzo de 1878, criado por Mr. C. Habis Maissey, hijo del toro Duke Hazlecate 36th, 33,671, y de la vaca Fanny 6ª Colonel Yrequimpte 7th, 30,769, y asi sigue.
ENDYMION No. 3—Rosillo nacido Julio 5 de 1880, criado por The Earl Telemaco 9th, 35,727, hijo del toro Cambridge Duke 5°, 30,644, y de la vaca Carolina por al toro 7th Duke of York, No. 17,754, y asi sigue.
PRINCE LUIS No. 4—Rosillo nacido 24 de Setiembre de 1880, criado por Mr John Strong of Culgüith Penritch, hijo del toro Dainty Duke 4th, 41,316, y de la vaca Kirkleigton Princess por Duke of Kirkleington No. 33,683.
SAINT PETER—Rosillo nacido el 29 de Junio de 1876, hijo del celebre toro Fire King 2°, 33,921, y de la vaca Snowdrop 2ª por Fire King, 28,693, Lady Florence por Prince Humbert 2° 24,815; Snowdrop por Prince Humbert 22,693; Old Snowdrop por Young Festus 17,343. Este toro obtuvo el 1er premio en la Esposicion de Cannock en 1877 y el diploma de honor de 1ª clase en la de la Sociedad Rural Argentina de 1878. Este animal se vende solamente en razon de querer su dueño cambiar la sangre. Esta en exhibicion.
Dos magnificos terneros mellizos, de la mejor sangre que se ha introducido hasta ahora—
ANDREW MARVEL, No. 44,311 y MERRY ANDREW, TWINS No 45,241, nacido ambos el 25 de Octubre de 1880, hijos del esplendido puro Sir Andrew No. 42,387 y de la vaca Sweetheart 23ª por Count Leinster 23,538, siguiendo asi hasta la 12ª generacion.
Estos dos terneros fueron numeros reservados en la Exposicion de Irlanda y Gran Bretaña por su escasa edad.
Estos animales pueden visitarse en nuestra casa San Martin 51.

Y han sido recientemente practicadas espresamente para vender, por cuya razon son tan bajas, llamando en consecuencia la atencion de los especuladores pichincheros, y demas que andan a la pesca de las oportunidades para efectuar compras de ocasion.
El barrio Sud toma cada dia mayor incremento, las mas importantes obras nacionales se haran indudablemente en este costado, y el valor de todas estas propiedades se acrecentara rapidamente. El Campo de Marte esta ya decidido se haga en la quinta de Diehl. La Escuela de Artes y Oficios en la calle de Brasil y Matheu, el Hospital Frances, el Parque, depositos, cuarteles y muchos otros importantes edificios entre los cuales estaran dos ministerios nacionales, todas estas obras que dentro de breve tiempo adornaran la Capital haran quintuplicar el valor de la propiedad territorial, y es ya notorio el aumento de estos valores.
No hay, pues, mejor caja de ahorros ni Banco que de mejores interes, que emplear las economias en terrenos centricos que, como estos, poseen gas, tramways, aguas corrientes, empedrados, etc.
Los titulos son inmejarables, por planos y otros datos, ocurrir San Martin 51.

CITY IMPROVEMENT WORKS.

B. Aires, 7th Sept., 1881

To the President of the Board
Dr. D Eduardo Wilde

According to my last of 16th August I have studied whether the works should receive an extension beyond the limits of the law of 8th September 1876, and in such an event which of Mr Bateman's plans should be accepted.

In this study I have considered that the former restrictions were adopted in a period of financial difficulty, when theworks were secondray to the State of the Treasury, and that the present Government wishes to endow the city with the most perfect works. I must here analyze the various budgets.

The five budgets of 11th October 1876 referred specially to the area fixed by the September law, making allowance for further extensions that might be contemplated in other parts of the city.

The highest of these budgets rose to $288,136,076 m|c with extensions beyond the fixed radius; without same it was calculated that the maximum expense would be $222,131,185, and the minimum with sweeping economies $193,385,128 m|c.

At that time, it must be remembered that one of the principal problems had not been solved, viz: the removal of the sewerage waters. Mr Bateman in 1871 proposed to throw same into the River Plate between Quilmes and the Riachuelo.

The Committee refused his proposal and thought same would be better used for manuring purposes. This was a necessary item in drawing up a definite budget. Two means were submitted to the deciding Committee—

1st—To throw the waters South of Quilmes and prepare soil for their purification.

2nd—To carry them to Punto Chico, there filter them, and throw them into the Plate or into the Arroyo Dominguez.

In both cases the items referred to 700 squares of the city. In spite of these steps the matter was only decided in August 1878, when the Committee, after due analysis and observations on the question, resolved 'that the refuse of the city should be borne Southwards of Quilmes where the current of the river would bear same to the sea.'

Before adopting this resolution the Committee had begged for information respecting the cost of the works, and the modifications that might lead to economy; on the strength of this and of the budget of the 8th September 1876 the final budget was submitted to the Government on the 14th of Aug. 1876.

This budget only amounted to $148,575,001 m|c, but in the Senate further reductions were made and the budget was settled at $135,839,588 m|c.

To obtain this reduction the following works were struck out.

A deposit.
One-third of the filters.
The roofing of same.
The large water deposit.
The collecting sewers and regulatory tunnels.
Part of the piping to carry off the water to Quilmes.
One-third of the horse power of the machinery.

With such restrictions, perfect works could not be effected, and besides the health of the population was not well consulted.

But in order that the Committee may well comprehend the importance of the appended works suppressed above, I must enter into some considerations referring to same.

In the water department, a deposit, a filter, the roofing and a large reservoir were suppressed.

It must be known that the waters of the Parana, unlike those of the Uruguay, are thick and muddy, owing to the many elements in suspension. This condition is sometimes very apparent, owing to the presence of much argile of a fine and diffusing property. This phenomenon varies according to the state of the river.

These waters must be purified before they can be used for domestic purposes, and the most economical purifying system was adopted. The waters were slowly led over layer deposits, where through gravitation the heavier bodies descended, then passed through filters that cleaned the water of all impurities. If one of the deposits were suppressed, the waters would enter the filters heavily charged with impurities, the clarification would not be very perfect, and the filters would need continual repairs for the sake of cleanliness.

It must be also borne in mind that the preservation of the layers costs little in comparison with the same outlay in the filters and desurating layers; this alone is a hint that the waters in suspension should be deposited in preference on the deposits of layers.

Experience also teaches us that in such layers, after they have been used for some time, the sediments of water deposit themselves in large quantities. Studies prove that the muddy colour of the Plate is owing to the presence of a matter with great affinity to the water, a fact that renders filtration still more difficult, if we wish to obtain a pure and crystaline water. The filtration, therefore, must be slow, and cover an extensive area—otherwise we cannot obtain pure water.

Furthermore, the filters cannot be kept in continual activity: they must be cleaned and exposed to the air in order that the oxydizing qualities of same act with greater energy on the organic matter contained in the water.

If two filters were only built, it would often occur that the waters would pass filtered through only one of them: this is quite insufficient, especially when the demand for water is likely to increase with the facility of getting same. We must also consider that the filter that has been suppressed by law of 1878, is already nearly finished, and if abandoned it will go to ruin and affect the capital invested.

It would be a serious error if the third layer deposit and the filter already begun and nearly finished were suppressed: the circumstance would effect an economy in the value of the buildings at the expense of the completeness and efficacy of the works, entailing a constant increase in the expenses necessary for purifying the waters.

As regards the roofing of the filters, this was projected owing to a double motive:—

1st. To impede the deleterious action of the rays of the sun on the water above the filter.

2nd. To avoid the development of vegetable germs under solar heat and light,

In spite of the above reasons I have preferred not to raise the budget too much, and to leave it to the time when they should be deemed necessary.

As regards the great water deposit, I may as well transcribe the following from the resolution of this office on the 11th Oct., 1876:—

"Water could be supplied temporarily to the city without this deposit, but the machines must work constantly and in case of accident the water-supply must be suspended.

A deposit with two days' water-supply avoids this inconvenience and is most necessary in case of fire." In spite of the advisability of the reservoir, I only second its execution, and suppress it from the budget, in view of the limited resources, A provisional tower instead might be constructed for $37,078,250 m|c.

As regards the sewers, the most limited radius was that projected in 1876 by law: the other four budgets projected extensions beyond this radius. If then these extensions were judged necessary under a hygienic point of view, so much more now, especially in reference to Barracas and the Boca, with a dense population and in an unhealthy locality: these extensions must refer to every important part of the city.

The budget for the Boca and Barracas amounted to $14,478,736 m|c: owing to the large amount involved I am prepared not to include same in the estimates. As regards other districts, I have thought it necessary to extend the works and fix the budget accordingly, as in the districts 1, 13, 17, and 20.

As regards the 'conduit' to Quilmes, it was thought that an iron pipe of 0.36m. would be provisionally at least sufficient. I have fixed on two iron pipes of 0,38m. owing to the increase of population: later on a third pipe can be laid down, if necessary.

I have already stated that in 1876 and 1878 the idea predominated of the irrigation and filtration of fecal matter. The calculations, therefore, must be now different, owing to the reform in the works.

In 1878 an intermittent filtration was proposed, previous to throwing the waters into the Plate. When this budget was sanctioned the items on filtration were suppressed, and those on the outflow were left unmodified: thus the costs vary much.

Filtered waters may be thrown on the beach, whilst in the contrary case they must be expelled where a strong current exists, and far from the shore. This task is both difficult and expensive, as it must be made in the very river and the works must be exceptionally solid, in order to avoid any break or disarrangement in the parts.

I have already stated that owing to the haste in which my calculations have been drawn up, same are susceptible of reduction.

In former budgets the waters were to be expelled in Quilmes, in that part called the barranca, but having entered into communication with the Municipality of that district, I can now propose a route through the low lands or 'bañado,' which will effect an economy in the horsepower of the machinery for the purpose.

As regards the machinery I must repeat what I think of the ejecting canal. The horse power of the machinery should not exceed the present necessities and a provident provision for the future probable development of the population, as interest on the capital invested will be lost and a further expense will accrue in the shape of a superabundant, but necessary, amount of fuel to work them.

If an excess in the horse-power is a mistake, a reduction of same, as passed by the Provincial Deputies in 1873, is a very serious error. The horse-power should always be sufficient to provide for any mishap that might otherwise lead to disastrous consequences, especially when repairs are necessary, and difficult to be carried out in the country.

The horse-power at present has been calculated for immediate necessities and providing for a probable extension of the works.

These observations are based on the following tables, shaped on budget 5 of 1876. As regards the provision works of water and sewers deduction has been made of the funds invested since then. The extensions are to the most populated district.

31 squares to district		1
"	"	" 13
4	"	" 17
28	"	" 26

On the other hand the various budgets, included the one taken as basis, are shaped on the 'licitacion' prices of 1873, therefore, I do not burden the budget with the expenses of management, as I think that the economy obtained in the 'licitacion' will suffice to cover same. I have neither included the expenses of expropriation.

To conclude the works for the provision of water over the net of sewers or 786 squares, I estimate at $52,061,037 m|c according to document II. These are sufficient for the provision of 363,477,000 litres daily.

Herein are not included the large service deposit nor the roofing of the filters.

Document B gives the amount necessary to conclude the City Improvements in the districts fixed by law of 9th Sept. 1876, and of the extensions in districts 1, 13, 17 and 26, or 786 squares total. Herein are not included Barracas or the Boca, in fact:—

	$m|s.
Water supply.....	52,061,038
City Improvements...	131,187,579
Total.....	183,248,617

Documents C and D explain the sums calculated in Sept. 1876, the amounts spent, and the value of the works necessary to finish the whole.

Hoping I have fulfilled the charge entrusted to me by the Committee, I salute the President, etc.

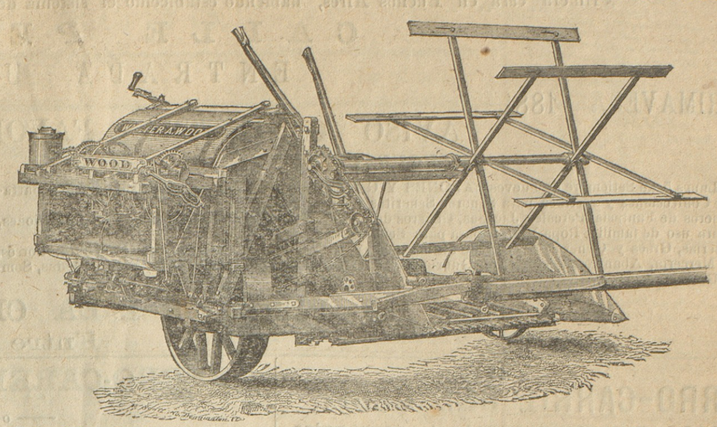
SOLE IMPORTERS OF

WALTER A. WOOD'S HARVESTING MACHINES



A Competitive Field trial of Automatic Binders was held at Melbourne, in the Province of Victoria, Australia, on the 29th day of November, 1880, under the auspices of the Melbourne International Exhibition and in connection therewith, but under the direction and charge of the National Agricultural Society of Victoria.

The Machines entered for competition were:—

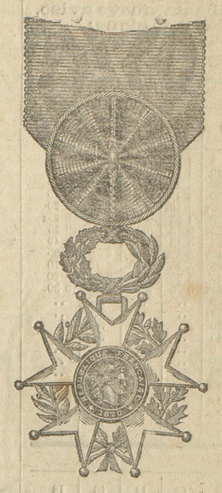
Walter A. Wood's Twine Binder,
Osborne's Wire Binder, Osborne's Twine Binder, McCormack's Wire Binder, McCormack's Twine Binder, Deering's Twine Binder.

(The judges in making their awards did not take into account the material used in binding, whether Wire or Twine, but were governed by the merits of the machine and quality of work done.)

Result of the Trial:

Walter A. Wood's Twine Binder

Was awarded the FIRST PRIZE.



The Walter A. Wood again victorious.

Result of the Rochester Trial—The Jurors awarded to

WALTER A. WOOD'S TWINE BINDER

THE FIRST PRIZE,

MORE PRIZES

At Field Trials held in Australia during the past Harvest.

November 27, 1880, at a Field Trial of Binders held under the auspices of the North Gippsland Agricultural Society, the Walter A. Wood Twine Binder was awarded the First Prize. Two machines competing.

December 9, 1880, at a Field Trial of Binders, held under the auspices of the Bendigo Agricultural Society, the Walter A. Wood Twine Binder was awarded the First Prize, a large Gold Medal, in competition with the McCormick.

GOVERNMENT Mortgage Bank

Offices 111 CALLE SAN MARTIN

This Bank will be open to the Public on all business days from 10 a.m. to 4 p.m.

It advances on real estate to be repaid on long dates.

It gives Mortgage Certificates (Cedulas Hipotecarios) for the amount of the loan it advances, which bear an interest equal to that collected by the Bank.

The value of property offered in mortgage shall not be under two thousand patacons, nor the loan be less than 500 fuertes.

No loan can exceed half the value of the property mortgaged.

The Mortgagor shall bind himself to pay an annual sum so long as the mortgage lasts, said sum to represent the interest on the sum lent the amortisation fund and commission to the Bank. This yearly sum shall be paid quarterly or half-yearly.

Series A—Quarterly

Mortgage for 20 years 117 days, 8 per cent interest 2 per cent. amortization, and 1 per cent commission.

Series B—Quarterly

Mortgage for 27 years 270 days; 8 per cent interest, 1 per cent amortization, and 1 per cent commission.

Series C—Half-year y

Mortgage for 20 years 190 days; 8 per cent interest, 2 per cent amortization, and 1 per cent commission.

Series D—Half-yearly

Mortage for 28 years 5 days; 8 per cent interest, 1 per cent. amortization, and 1 per cent commission.

Upon the full payment of the yearly sum stipulated in the Mortgage, both property and Mortgagor shall be freed from all further obligation.

The Mortgagor shall be at liberty to anticipate the payments and to discharge the mortgage, all or in part.

Applications for mortgages must be made in writing, specifying the property offered, accompanied by the title deeds, the receipts of the Contribucion Directa tax, and setting forth that the property is free from all incumbrance or if not the incumbrance that exists thereon, and which is to be paid off by the mortgage. The Secretary of the bank will supply applicants with the forms necessary as also the tables for amortization.

Quarterly mortgagers shall pay from 8th to 15th of each January, April, July and October, and half-yearly mortgagers shall pay between the 8th and 15th of each January and July.

With the amortization fund, mortgage certificates (cedulas) shall be redeemed at par by quarterly and half yearly drawings.

The mortgage Bank pays the interest on the quarterly cedulas or mortgage certificates between the 31st December and 6th January, the 31st March and 6th April, the 30th June and 6th July, the 30th September and 6th October every year, and on the half yearly cedulas from the 31st December to 15th January, and from 30th June to 15th July.

The Mortgage Bank can act between the capitalist and mortgagor, free of charge in the way of realising the cedulas, and for the purpose will receive deposits without interest which will receive a preference, and which sums will be deposited in the Provincial Bank

Cedulas are taken in deposit from 1 Cedula of 50 Patacons he lowest amount issued by the Bank) upwards.

JOSE M. LA FUENTE
Secretary.

Keating's Cough Lozenges.

COUGHS,
ASTHMA
BRONCHITIS
ACCUMULATION OF PHLEGMA

Composed of the purest articles. These Lozenges contain no opium nor any deleterious drug, therefore the most delicate can take them with perfect confidence. Their beneficial effect is speedy and certain. This old unfailing family remedy is daily recommended by the most eminent Physicians. (In use nearly 60 years.)

Medical Testimony

July 26th, 1877. 22, Cold Harbour Lane, London.

Sir,—Your Lozenges are excellent and their beneficial effect most reliable. I strongly recommend them in cases of Cough and Asthma. You are at liberty to state this as my opinion, formed from many years experience.

J. BRINGLOE, M.R.C.S.L., L.S.A., L.M.

Mr T. Keating, Indian Medical Service.

Dear Sir,—Having tried your Lozenges in India. I have much pleasure in testifying to their beneficial effects in cases of Incipient Consumption, Asthma and Bronchial Affections. I have prescribed them largely, with the best results.

W. B. G.——Apothecary, H.M.S.

KEATING'S COUGH LOZENGES are sold by all Chemists in tins and bottles of various sizes, each having the words 'Keatings' Cough Lozenges' engraven on the Government stamp.

Keating's Worm Tablets,

A PURELY VEGETABLE SWEETMEAT both in appearance and taste, furnishing a most agreeable method of administering the only certain remedy for Intestinal or Thread Worms. It is a perfectly safe and mild preparation, and is especially adapted for Children.—Sold in Tins and Bottles by all Chemists.

MALTINE.

(Extract of Malted Barley, Wheat and Oats.)

The Original and only Reparative Composed of these three Cereals.

MALTINE is a highly concentrated extract of malted Barley, malted Wheat, and malted Oats, containing, undiminished and unimpaired, all the nutritious principles that can be extracted from these cereals. By the most carefully conducted scientific process we are enabled to offer a perfect article, possessing five to ten times the beneficial and nutritive merit of any alcoholic or fermented Extract of Malt.

"WHEAT and OATS are especially rich in muscular and fat-producing elements."—Liebig.

MALTINE will increase both weight and flesh in most persons of thin habit.

MALTINE is particularly recommended for delicate Females and for weak and debilitated Children and Infants.

For Deficient Lactation, and for Mothers whilst Nursing, MALTINE is especially recommended.

MALTINE is the most important combination for use in Constipation.

MALTINE is entirely free from all products of Fermentation, such as Alcohol and Carbonic Acid Gas.

MALTINE is very palatable and pleasant, and will be readily taken by the youngest child.

The Compounds of Maltine

Can undoubtedly be used with greater success than any other remedy now known in diseases of General and Nervous Debility, Indigestion, Imperfect Nutrition, and Deficient Lactation; Cholera Infantum and Wasting Diseases of Children and Adults; Convalescence from Fevers, and whenever it is necessary to increase the vital forces and build up the system.

For Consumption and Wasting Diseases

MALTINE with Cod Liver Oil—The most perfect emulsion and most agreeable and effective mode of administering this nauseous but valuable Oil yet discovered.

MALTINE with Hypophosphites.—This preparation is specially indicated in Consumption, Rickets, and deficient Ossification.

MALTO-YERBINE.—A most palatable and efficacious remedy and substitute for Cod Liver Oil in the treatment of Consumption and Wasting Diseases; also the most perfect remedy yet produced in Chronic Pulmonary Affections, Coughs and Colds.
